

Dear colleagues,

West Ukrainian National University is pleased to announce its 6th International Week. The event will be held from 9 to 13 of September 2024.

In the context of the ongoing war and the challenges posed by the full-scale invasion, we remain determined not to give up and to overcome any obstacles, which will allow Ukraine to preserve and increase its potential in education, science, internationalisation and research.

This year the topic of the Sixth International Week is **“Bridging Partnerships, Shaping Futures: Innovation and Cooperation in a Trying World”**.

We sincerely invite you to participate in the 6th International Week, as we believe that this event is an extraordinary opportunity to share your ideas and experiences.

About WUNU IW

The tradition of the International Week started in 2019 and has become an integral part of the university calendar, embodying our ongoing commitment to promoting international cooperation and scientific development.

WUNU IW 2024 is an international event for presenting the latest research concepts, exchanging ideas and developments in all areas of WUNU IW. International Week also allows participants to expand and strengthen cooperation between partner institutions in the framework of educational and/or research projects.

International Week is a platform designed to bring together reliable partners of our university who have been steadfastly supporting us since the beginning of the full-scale invasion. This event serves as an opportune moment for us to express our heartfelt gratitude for their unwavering commitment in these difficult times. International Week is a testament to the resilience and spirit of cooperation that unites our global community.

Given the circumstances, the 6th International Week will be held in a hybrid format. This way, we will attract participants who want to take part in the event offline, as well as those who are forced to join only remotely.
