Evaluation policy

- **Deadline and Recompilation Policy:** Entries that fail to meet deadlines without good reason are rated lower (-20 points). Relocation of modules takes place with the permission of the dean's office if there are good reasons (for example, due to illness).
- **Academic Integrity Policy:** All written works are checked for plagiarism and are allowed to be defended with correct text borrowings of no more than 20%. Write-offs during tests and exams are prohibited (including the use of mobile devices). Mobile devices may only be used during online testing (for example, Kahoot).
- **Attendance policy:** Attendance is a mandatory component of the assessment for which points are awarded. For objective reasons (e.g. illness, international internship) training can take place online in consultation with the course leader.

Evaluation

The final grade for the course is calculated as follows:

Module 1		Module 2		Module 3	Module 4
20 %	20 %	20 %	20 %	5 %	15 %
Current assessment	Modular control 1	Current assessment	Modular control 2	Training	Student-self-study
The grade is defined	The modular control	The grade is	The modular	The grade is defined	The grade is defined as the

<p>as the arithmetic average of the grades obtained during practical classes (from 1 to 7 classes). Each applicant must be evaluated at least once every two classes and receive at least three evaluations. Missing practical classes must be made up during consultation hours, otherwise they are considered a grade of "0" and are taken into account when determining the arithmetic average. For applicants who study according to an individual schedule, ongoing assessment is carried out during consultations and by completing tasks in the Moodle system. Current assessment is conducted through an oral survey, preparation of scientific reports, problem solving, testing through the Moodle system in practical classes.</p>	<p>is scheduled after half of the classes and covers 1 to 5 topics, and involves the completion of 20 test tasks and two cases.</p>	<p>defined as the arithmetic average of the grades obtained during practical classes (from 8 to 15 classes).
